child restraint-to-vehicle fit guide

nuna®

Designed
around your life

Vehicle fitting information

For installation with ISOFIX system

This is an Integral Specific vehicle ISOFIX Enhanced Child Restraint System.

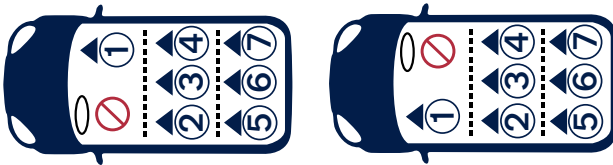

If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.

ALWAYS give priority to the rear seats of your vehicle.

DO NOT fit your child restraint onto a vehicle seat fitted with an airbag, unless it can be, and is deactivated. Death or serious injuries can be caused by an activated AIRBAG system.

It is suitable to fit into seat positions in most cars. The numbers on the diagram below correspond with the vehicle fitting positions listed in the following pages.

Before you purchase the vehicle, check that it is equipped with the appropriate anchorages.

- Your child restraint can be fitted
- x Your child restraint can not be fitted

 i-Size vehicles

SB! Vehicles with under floor storage boxes.

If your vehicle is not listed in this manual or it is not marked with either a • or x then please refer to your vehicle's handbook or contact the manufacturer for further information. Seat positions in other cars may also be suitable to accept the child restraint. If in doubt, consult either the enhanced child restraint system manufacturer or the retailer.

This fitting-list has been carefully compiled based on scientific data collected from both vehicle and child restraint. It is intended to use as a guidance. Before purchasing the child restraint, please make sure that the child restraint you purchase is compatible with your vehicle as there may be regional differences in vehicle equipment. It is essential to follow the vehicle manufacture's recommendations in the vehicle owner's manual.
